VOLUNTEERING PROGRAMME

June 2019 – February 2020

The Pendle Hill Volunteers get involved with lots of different tasks across the Pendle Hill Landscape Partnership area. There are sites where we are continuing on going habitat management throughout the year – such as Worsaw Hill and Clarion House, which feature in our Wild About Pendle Hill project. In the summer we also concentrate our efforts on non-native invasive species removal (Pendle WINNS project) and then in the winter period we tend to focus on more seasonal activities such as woodland management, tree planting and hedge planting.

No previous experience or knowledge of skill or activity is needed for any of our tasks, and we encourage volunteers to come along whenever they can and want to. All of our tasks take place outdoors in the landscape, and we only cancel or rearrange to an indoor activity if the weather forecast is so bad we deem the activity to be unsafe.

VOLUNTEER CHECKLIST

Please bring along:

- Sturdy outdoor boots or wellies
- Waterproofs and spare layers (the weather can do anything!)
- Enough water for the day

What we provide:
